He completed the divergent trilogy that Roth started with his divergent debut novel at 2011. [1] [3] [4] [5] [6] [7] The book is written by the perspective of both Beatrice (TRIS) What by Tobias (four). [8] Following the revelations of the previous novel, they cross the boundaries of the city to find out what is over. Alleviare was published simultaneously by Katherine Tegen Books and Harpercollins Children's Books in the United Kingdom. [1] Four weeks ago, a free book of electronic trilogy accompaniment entitled The World of Divergent: The Path to Allegiant has been published online. The novel had to be adapted in a two-part film, the first part, The Divergent Series: Allegiant, was published in March 18, 2016, while the second part, ascending call, was scheduled for release in June 2017 But it was finally canceled. Tracing a future distributing Chicago has a company that defines its citizens in close compliance with their social and personal affiliations with five different factions. This eliminates the threat of anyone exercising an independent will and threatens the security of the population by war or for another human catastrophe. These crazy are considered facts and are treated as a lower class and a drainage on the company. After the revelation of their city, Evelyn Johnson-Eaton becomes the leader of Chicago, who All factions must live in the same way as the faithless. Confess their role in the insurrection, Beatrice "Tris Prior", Christina and Cara are forgiven. Tris learns from Tobias' "Four" Eaton about the rebel "Alleviant", who works to restore the faction system. Several people are killed in a clash between faction members and the Factionless, including Evelyn's right arm, Edward. Tris is invited to a meeting with the Savivors, whose leaders, Cara and Johanna Reyes, want to usurp Evelyn and send emissaries out of town. Tris was chosen for the expedition, along with Tobias, Cara, Christina, Peter Hayes, Uriah Pedrad and Tori Wu. Tris asks Tobias to release his brother Caleb from execution. Tori is killed by the Factionless, and the others flee and meet Tobias'mentor, Amar, who has long been presumed dead. They're being taken to the Bureau of Genetic Protection and its leader, David. David explains that Chicago is walled out of the outside world in an experiment authorized by the American government to produce genetically pure (GM) "Different" from the genetically damaged population (GD), the result of a failed attempt to correct the human genes that led to the "War of Purity". David gave Tris her mother Natalie's diary explaining her life before Chicago. She was a Milwaukeee refugee who joined the FBI and volunteered to stop the killing of Erudite Divergents. Those saved included Amar and Tori's brother, George. Tobias learns that he is not a true Divergent and joins Nita, a member of the GD office, in a rebellion against GP personnel. Tris is skeptical about the plan, but jealous of Nita. The informant Matthew helps Nita access the weapon room and trigger a bomb that causes brain damage in Uria. Tris stops Nita's rage by holding David hostage before he hurts her and arrests her. Tris is appointed member of the board and makes himself That the FBI supplied Erudite with the simulation serums that controlled the Dauntless in the Abnegation invasion. Security video reveals Marcus Eaton, who has been banished by Evelyn, is working with Johanna to steal weapons from the factionless, which Evelyn will control by releasing the serum of death. Tris learns that David intends to release a serum that can erase the memories of the population to save his experiment. He formulates a plan to release the memory serum on the Bureau while Tobias, Christina and Peter, with Amari and George's Help, return to Chicago with antiserum for Christina and Uriah's families. Tobias, with his plan to inject his mother with a memory serum, confronts her and asks her to avoid war in exchange for becoming his mother again. Evelyn agrees, negotiates peace with Johanna and Marcus and exiles for two years, and Marcus never flies the Chicago conductor. Tobias gives the memory serum to Peter, who intends to start over. Caleb's volunteers to expose the memory serum, a suicide mission, but Tris is replacing him. She successfully rejects the serum of death but is shot by David. Tris sees her mother's visions of her hugging her before she succumbs to her wounds. Tobias, Christina and Peter return to the Bureau and learn from the death of Cara della Tris. In a deep depression, Tobias is about to drink the memory serum to erase his memories of TRIS until Christina stops him. Uriah's brother Ezekiel "Zeke", and his mother, Hana, are with Uriah as his life support is disconnected. Two and a half years later, Chicago is reopened and rebuilt, and people coexist regardless of genetic purity. Tobias, now a council aide under Johanna, welcomes Evelyn from her exile. To celebrate the choice of the day, he, Christina, Caleb, Zeke, Shauna, Cara and Matthew drive a zip line from the Hancock building, where Tobias scatters Tris'ashes and finally accepts his sacrifice. Background Development of July 18th 2013 At the Comic-Con San Diego panel for the Divergent, Roth revealed that Allegiant is from TRIS and four. 9 And he said, "I tried repeatedly at aWe're just assuming Tris's voice, but it didn't work. His perspective, his way of seeing things, was a little too limited for the story I needed to tell. I wanted to do two things with it: A. allow two characters to experience different things, and B. let them react differently to the same things, so that I (and eventually the reader) would have a better sense of the whole story, the whole picture. "[8] He also said, "I said before that I always saw Four (always more, like the continuous series) as a trampoline next to Tris, so it was the obvious choice for the second POV (though not the only one I tried). Exploring him and his choices and assumptions about the world was incredibly interesting to me. "[8] The title Roth said that he did not try to choose titles that end with "ent" for all three books. He also said: "I did not go through other ideas. He has always been a giver, who has defined "One who is loyal or faithful to a particular cause or person." [11] [12] [13] [14] Published four weeks before Allegiant was released, it was intended to be an accompanying book for the Divergent trilogy. [1] Roth continues to write related narrative, and the Path to Deliverance is an accompanying book for the entire Divergent universe in many ways. It contains an exclusive detailed description of the factions and their origin, their inspiration The trilogy, a Factions quiz, and Roth's answers about the trilogy. The book also contains ten t's [15] [16] [15] [16] Presumably. [17] [18] Critical Reception In a review for Entertainment Weekly, Hillary Busis gave the novel B+ and wrote that "If you have already been sucked into Roth's world, you will appreciate the book of twist plot; and his scenes chaptyrriid/Tobias as as love. "[19] Weekly of the editors stated in his review that "Alternative perspectives are sometimes annoying, due to the similarity between Tris and Tobias narrative firsthand. However, for those who have faithfully followed these five factions, and especially the duo of Dauntless who stole hearts two books ago, this last installation will capture and keep watch until the final dividing battle has been waged.
